

Building a foundation for a solid digital future

WE'VE JUST PASSED THE ONE-MONTH MARK for our new [Digital Banking Platform](#), the secure, adaptable foundation that will grow with us as technology evolves. It will enable us to be much more nimble in bringing you new online banking options. ((261244))

In a world where technology becomes obsolete at a dizzying pace, it's comforting to know that we now have a system that will more than keep pace.

For all the Digital Banking Platform's power and potential, we recognize that for some members, the transition felt rocky. We want you to know that we hear you, and we're continuing to work on issues that are important to you. (More below about how you can join the conversation.)

We hope you'll continue to [explore the Digital Banking Platform](#) and discover what it has to offer. For example, you now can send money in real time to friends or family using just their email address or phone number (it's called "[PayDough](#)"). You'll also like its customizable navigation that lets you click icons to find the services you use – and hide the ones you don't. ((144348))

You have our commitment to develop the Digital Banking Platform to be one of the best online banking experiences in the industry. In that spirit, I invite you to join our new Digital Banking Advisory Group. This group is for members who have a passion and ongoing commitment to enhance Digital Banking by sharing their feedback and ideas.

If you're interested, please email DigitalBanking@inspirusCU.org. Your voice matters in shaping the kind of world-class system that will take us into the future.

Forward!

Spotlight on Community

Moments of educational inspiration near you!

WALK INTO ANY INSPIRUS BRANCH, and the first thing you'll likely see is our Community Wall – a showcase of local educational excellence and how members and Inspirus are [making a difference](#). ((83872))

Here are the stories you'll find this month:

Lynnwood. Check out [ORCA](#) – the Ocean Research College Academy – at Everett Community College. Through ORCA, high school students can earn a tuition-free associate's degree in addition to a high school diploma. As the only early college academy of its kind in the country, ORCA blends Running Start with an immersive program that uses marine sciences as the backdrop for education in all core subjects. Inspirus donations help pay for the specialized equipment ORCA needs.

Tukwila. Inspirus has pledged \$7,000 this year to [Green River Community College's completion fund](#), which helps remove obstacles that keep students from finishing their degrees. The wall will showcase the school's innovative Information Technology program that teaches skills needed to land in-demand jobs in IT network administration, security, web development, and more.

Spokane. The [Spokane Guilds' School](#) provides assessment, therapy, education, and support to families of children ages birth to three who are navigating the world with disabilities. Inspirus is hosting a penny drive to support Guilds' School students as they gain skills needed to transition into the education system.
